Hospitality Solutions changes to RGH Hospitality

Apr 27, 2009

Wilton, NH, April 22, 2009... Hospitality Solutions, a hotel management company that delivers optimal cash flow to its clients, today announced the change of its corporate name to RGH Hospitality. In a move to underline its expanded offerings, the board of directors felt that a new name was appropriate. RGH Hospitality is known for operating hotels to very tight standards while providing a high quality guest experience.

"RGH Hospitality's systems and controls, combined with our unique method of operation, provide hotel owners and investors with superior cash flow," says Glenn Hardman, president of RGH Hospitality.

In recent months RGH Hospitality has been sought out by owners and investors of distressed hotels who have heard of its ability to turn underperforming properties into revenue generating assets.

"We are delighted that new clients are coming to us via word of mouth," says Mr. Hardman. "It is the ultimate testament to RGH Hospitality's ability to drive revenue to our clients' bottom line, deliver a superior product and provide outstanding service."
