**Roedel Companies Purchases Holiday Inn in Mount Kisco, NY**

*The hotel is set to undergo a multi-million dollar renovation*

**WILTON, NH** – New Hampshire-based hotel owner/operators Roedel Companies has added a full service hotel to their portfolio. The organization has purchased a 122-room Holiday Inn in Mount Kisco. The hotel will undergo a multi-million dollar renovation to update all public spaces including the lobby, corridors, meeting and banquet rooms, and a repositioned restaurant. The hotel will remain open while undergoing these changes, beginning in the first quarter of 2014.

Partner of Roedel Companies, David Roedel, explains that the primary goal of the renovations is to round out the customer experience. “The guest rooms were recently renovated and are in great condition,” said Roedel. “By updating the public areas, and repositioning and rebranding the restaurant, our customers will be able to enjoy all aspects of the hotel from check-in to check-out.”

Roedel stated that the organization brought together a highly experienced group of partners under one roof to renovate and operate the Holiday Inn. ROK Builders, the hotel construction affiliate of Roedel Companies, will oversee the renovation, while RGH Hospitality, the hotel management subsidiary of Roedel Companies, will run the hotel. RSJ Associates will spearhead interior design and procurement.

Roedel Companies used the same approach, coined ‘Hotels. Done Right.’ at their highly successful La Quinta Inn and Suites in Manchester, NH and Holiday Inn Express & Suites in Merrimack, NH. “By utilizing the group’s combined industry experience, we are able to maximize every dollar invested in this project,” explained Roedel. “We’ll do so by strategically applying the in-depth expertise our team has accrued during nearly 45 years of successful hotel development, construction, management, and design on to meet the project’s specific needs.”

ROK Builders, the hotel construction affiliate of Roedel Companies, LLC, has 45 years of experience developing, constructing, managing and designing hotels for its own account and third parties. The organization’s new hotels and hotel renovation projects are designed to maximize revenue, control costs and ultimately deliver optimal free cash flow to owners and investors. ROK Builders’ expertise in the hotel construction business has earned a reputation for delivering well-designed and cost-efficient projects on time and on budget.
